the scale runs from a low of c1 to a high of c10, where c10 is the best grade and c1 is the worst.

once you do away with a corporate rate there’s no longer any justification for halving the tax between the corporation and the individual

it kind of feels that you’re doing any unique trick

you have to face the fear of not knowing you are ok..and assuming what you have is anxiety..before you will dispel its lie

can also be used in the mouth and pharynx
