adults, the elderly and children over 12 years: use 1 to 2 drops in each nostril as required but no more than 4 times a day

lisahollier and washington representative katie schubert participated in the meeting, which included a group of maternal and child health advocates

i’m not sure if this is a format issue or something to do with browser compatibility but i figured i’d post to let you know

the banks argue that the build-up of aluminum at their warehouses is a result of relatively low economic activity

he didn’t “umm” or “ahhh” once for the 10 hours he spoke and answered all questions no matter how controversial the topic.
